ABOUT THIS BRICK

A reimagining of the traditional London Yellow Stock Imperial that built much of the Victorians housing stock. Originally, the London Stock would have been made at factories dotted along the Thames Estuary and fired with coal. Today many alternatives come from Turkey, India, Pakistan. Our London Stock is made by hand in Yorkshire and fired with gas. This brick has been used on the Queens Tennis Club and other parts of the capital. Please get in touch for price or more information. Phone 01438 869100 or email info@marshmoorbricks.co.uk. Available in 68mm Imperial.
